

## Software offers flexibility for CHASE team

RAMSAC, a leading Surrey-based IT solutions company, announced that it has provided software to enable the community care team at CHASE children's hospice to work remotely from their computers so that confidential information can be updated securely and instantly from any location.

The Citrix-based solution will save money and reduce the time spent travelling to and from the CHASE headquarters in Surrey, resulting in more time spent providing vital care services.

Ramsac is an independent IT consultancy advising businesses nation-

wide on technology projects, network implementations, IT strategy, IT management and support. Founded in 1991, the company provides a wide range of outsourced IT services to companies, charities and the public sector.

Its suite of solutions includes network design and implementation, remote support, network management, IT audits, on-site engineering, project management, and IT direction and strategy.

It is committed to providing excellence in customer service and is proud to maintain 96% client retention rate.
