

Ramsac wins CCHF contract

Keyleigh Bateman

VAR Ramsac has landed a contract with the Children's Country Holidays Fund (CCHF) to maintain and manage the running of the charity's IT infrastructure.

Ramsac's services include on-site visits to oversee the charity's network and remote technical support via a telephone hotline.

The charity has servers and PCs installed at its Hassock and West Sussex offices, maintains two web sites and has a donations database.

Paul Mew, technology consultant at Ramsac, said: "The CCHF's chief executive recommended working with Ramsac, as she knew the company from previous work it did with a different charity."

Ramsac takes stress out of school IT management
