

## **ramsac supports Children's Country Holidays Fund**

ramsac, a leading Surrey IT solutions consultancy, has been chosen by the Children's Country Holidays Fund (CCHF) to manage and maintain all its IT infrastructure, critical in the day-to-day running of the charity.

ramsac is providing proactive IT support and management for all of CCHF's IT systems, including regular onsite visits to manage the network, and the provision of strategic planning and budgeting advice, ensuring that the technology continues to meet the charity's requirements.

As one of the oldest charities in the UK, the CCHF exists to give severely disadvantaged children (those who experience poverty, dangerous environments, domestic violence, mental, physical or sexual abuse, bullying, isolation or exclusion from school) from London and surrounding areas a range of holidays and breaks to help improve the quality of their lives, recognise their potential and achieve their personal goals in the safest possible environment.
