Ramsac earns top marks from its clients

LEADING IT solutions consultancy ramsac has announced that 100% of its clients would recommend its services to others, according to a UK-wide survey commissioned by Microsoft.

The survey also shows that all the polled clients are highly satisfied with ramsac's service as a Microsoft Gold Certified Partner.

Managing Director Robert May said: "We are absolutely delighted to have achieved the highest marks across the board in the survey, and would like to thank our loyal clients for their support.

"Delivering the best levels of service, in partnership with a major vendor such as Microsoft, involves a substantial commitment from us both as a company and individually across our dedicated teams."
