## Toast of Surrey: ramsac

February 02, 2011

A TEAM of IT professionals hope to cap a successful last 12 months with recognition at the Toast of Surrey Business Awards.

Godalming-based ramsac limited provide services to customers big and small in the business, charitable and education sectors.

Founded in 1992, the company employs nearly 30 members of staff and has a mission to make IT simple.

It is also active in the community as a founder member of the Surrey Chambers Community Foundation and a proud sponsor of Guildford Heat Basketball Club. The firm is shortlisted in the category for companies with a turnover of up to £5million.

Dan May, managing director, said: "We are absolutely delighted to have been shortlisted for the Toast of Surrey Business Awards – it is great recognition for the whole team at ramsac.

"We have always considered ourselves to be part of the wider Surrey community – not only because that's where our offices are located, but because we have been so passionate about getting involved in both economic and community development locally."

Mr May added that 2010 had been a year of great innovation for ramsac with the launch of several new services and technical solutions and an increase in the number of businesses choosing to outsource all or part of their IT requirements.

"As a result we have seen a growth once again in our turnover and profitability," he explained. "We've recruited more people locally and we've ramped up our skill development programme for our staff, ensuring that we continue to recruit and develop the very best people in our industry.

"Our mission, 'to make IT simple' has really resonated with our client organisations, and we are proud of our dedicated team of IT professionals who have been so determined in the delivery of our service and overall vision."
