

Life at **ramsac**
volume 5

Foreword by our Executive Chairman, Rob May

The ramsac culture as defined by our colleagues

Welcome to volume 5 of 'Life at ramsac'. This is a collection of straightforward quotes from the amazing people who work at ramsac, and it has been assembled to help you decide if we are where you want to thrive and develop the next stage of your career.

I passionately believe that it is our culture that makes us so different to our competitors. For over 30 years it's been our priority to ensure that our growth and success has never compromised our values. The following pages will provide an insight to any new colleague, prospective colleague, client, partner (or anyone else who is considering working with us) as to what our culture really looks and feels like.

But first, what is the ramsac culture to me? From my perspective it's about delivering exceptional customer service and always doing the right thing by everyone without compromise. It's about relationship and friendship. It's about working hard as a team, about having fun whilst being professional. It's about growing people (personally and in work). It's about no one being afraid to ask for help and everyone having your back. It's also about a shared passion for growth, in all aspects of our business, our lives and our clients.

Our culture is based on six core values which in themselves define both the word ramsac and the integral skills of what makes a ramsac person:

reliable: Provides consistently excellent service and communication, always delivers on promises.

approachable: Friendly and easy to talk to, uses language that doesn't baffle. Helps others willingly.

motivated: Enthusiastic, willing and determined to achieve success both personally and professionally.

skilful: Well trained and knowledgeable, a master of their trade.

adaptable: Willing to be flexible to meet customer needs. Not constrained by policy or procedure.

committed: Loyal and willing to give their time and energy. Always looking to go the extra mile.

These values make it clear what we expect from one another, it also empowers people as they understand the framework by which we make

decisions. Of course, it's not just about words, it's about how it feels to work here, or work alongside us every day. We are passionate about being the best employer we can possibly be.

Whether it is through our flexible approach to learning and personal development, our focus on positive mental health and wellness, or our strong track record of providing clear career paths and opportunities for internal promotion, we are committed to supporting our team members' growth and well-being.

We participate in the independent 'Best Companies to Work For' study each year and this year we again achieved the top coveted 3 Star award, which rates us as a 'World Class Employer'.

There really is a reason why people join ramsac and stay for a long time and that's also why we happily maintain a 5-star rating on Glassdoor.

The ramsac culture means different things to different people. So, to produce this book, I asked everyone to tell me in their own words what it means to them to work here as a part of team ramsac. What follows is their unedited responses so you can read for yourself what it feels like to be a part of the team here each and every day.

I hope you enjoy reading this book and I'm looking forward to working with you.

Warmest wishes,

Rob May

Our staff are the most important thing about ramsac! That's because as a business we have made it our mission to be the most people focussed IT supplier on the market. “take me to the cauliflower”

a customer service parable - Rob May

We have a saying at ramsac “Take me to the cauliflower”. it wasn’t introduced as a conscious part of our culture but it’s very much alive and I think it’s here to stay! ramsac has a specific approach to customer service and our fundamental focus is on always making IT simple for our customers.

In 2018, I found myself frustrated in hearing a couple of conversations in the office (and observing some behaviour) which suggested to me that sometimes we were failing on the wow side of our making IT simple service, one that the leadership team strive to make a constant. Later that day we had a scheduled company briefing (as we do at the beginning of each quarter). I decided to use the opportunity of having everyone come together to discuss my observations. When it came to the time, I chose to create an analogy for everyone and discuss the principles rather than the specifics.

My story went something like this:

Imagine if you will that you are in a supermarket, it’s a supermarket that you’ve never visited before, and you are unfamiliar with its layout. You enter the store and find the wine section (this was your mission), you spend some time selecting the wine you want and then you suddenly realise that you also need to buy a cauliflower! (In all honesty I don’t know where that came from, I was thinking on my feet, but a cauliflower it was and that it will always remain!).

You turn around looking for a member of a staff who can help you and you spot someone in the regulation store uniform, you approach them and say “Excuse me, I’m looking for a cauliflower, please can you tell me where they are?”

If you are in Waitrose, suddenly you are surrounded by staff who gently lift you and carry you to the fruit and veg section, they talk you through the array of domestic and exotic variants of cauliflower they have on offer, perhaps suggesting cooking tips or even matching the brassica to your wine selection.

When you’ve selected your item they ask if you need anything else and then help you to the checkout, probably feeding you grapes and helping you to pack your wine and cauliflower before wishing you a nice day.

If you are in a Sainsbury’s, the

member of staff would probably smile, walk you to the end of the wine aisle, point out that the fruit and veg are three aisles along and tell you that the cauliflowers are on the right hand side.

If you are in a budget supermarket the staff member might look at you disdainfully and tell you that they don’t know, grunt and walk away.

The point is that as a customer in all three cases you asked the same question, but depending on the store you are using will depend on the response and the customer experience you receive. I went on to say that in all cases; whether the customer is internal or external; if someone asks you for help, please ensure that metaphorically you ALWAYS take them to the cauliflower.

And that was that, or so I thought.

The story clearly hit home with everyone, first people started commenting on service they witnessed outside of ramsac which obviously didn’t meet the cauliflower ideals, and then it entered our own everyday parlance. I soon witnessed one of my managers asking a member of staff for some information, they responded immediately with what was technically the right answer, but it was brief and not altogether as helpful as it could be, without having to say anything else the manager simply said, “That’s not really taking me to the cauliflower is it?” the effect was immediate as you can imagine.

“Take me to the cauliflower” has become a phrase that both embodies what we do, and also allows anyone to challenge another colleague if they think they could be doing more.

I recently read Lead with a Story by Paul Smith and he extols the power of storytelling in the business world, I completely agree with him and my simple cauliflower story, designed to ensure that we always deliver amazing service, is a great example of this.

I urge you personally to ensure that when you’re helping anyone, you always strive to take them to the cauliflower, if for whatever reason you don’t know where the cauliflower or whatever is, simply take the time to tell them how you would suggest finding it rather than saying you don’t know, or even worse, grunting and walking away!

Life at ramsac - culture

We place huge importance on the culture of our organisation. Culture isn't about bean bags and pool tables! It's about working alongside people who share our values and treating them really well. It's about running our business with a high degree of compassion and ethical standards.

We are proud to be a Carbon Neutral Business and have committed to initiatives such as the 'Mental Health At Work commitment,' 'Tech She Can' and the Disability Challengers Social Responsibility standard.

We truly believe in a "People First" approach, and happy employees lead to happy clients. That is why we take immense pride in having been awarded and recognised as a 'World Class Employer' with the prestigious 3-star accreditation rating by Best Companies. What makes our scores truly remarkable is that they are entirely determined by votes from our entire workforce, asking questions around working conditions, culture, reward, progression, community impact, and all the key factors that measure staff engagement and happiness.

about diversity

Diversity and Inclusion

We are 100% committed to creating a work environment free from bias or discrimination, where everyone feels able to challenge or question anything that doesn't feel right, and where all colleagues come to work each day knowing that they will be free from prejudice and that they can openly raise any concerns about treatment they don't consider to be ethical or fair.

We have **Diversity and Inclusion Champions** here at ramsac who meet regularly to discuss how we can continue to build a workplace where everyone feels valued and empowered to contribute their best.

ramsac academy

Personal Development looks different for different people. Back in 2017 Rob May created the ramsac business school. This was a 12-month programme available for all staff covering various aspects of self-discovery, leadership, and strategy, it focused on understanding human behaviour and its practical application in business and leadership.

The core 12-month programme now called 'leadership academy' runs every year, offering all staff access to our unique business and personal development training, helping everyone at ramsac reach their full potential.

Now, seven years on, there are multiple academies open to every ramsac employee to improve their knowledge, skills and confidence. The other academies are less structured and function more like interest groups. We see these as a mixture of learning, peer sharing and experimentation. You'll have the opportunity to learn from each other and occasionally hear from guest speakers. Whether you bring a highly technical perspective or are simply an interested end-user, both viewpoints are highly encouraged and valued.

• leadership academy

The original and most comprehensive 12-month long ramsac academy. A large majority of staff at ramsac have completed this journey, with most finding it pivotal to their development and growth.

• cybersecurity academy

This academy is for everyone who has an interest in any aspect of cybersecurity. It covers the latest threats and emerging risks, security frameworks, SIEM and incident response, governance, and training.

• public speaking academy

This short, 3-session academy, is to help people build their public speaking and presentation skills. With useful techniques to help combat nerves and anxiety, it will also help participants become more engaging and impactful speakers.

• AI academy

Covers all things from a Generative AI perspective, Open AI ChatGPT, Microsoft CoPilot etc. Exploring what the opportunities are to use these platforms, how are you using these tools, what are the privacy and compliance considerations, what's next?

Participation in multiple academies is possible, though scheduling and availability may affect choices and ability to do so. Applications for the leadership academy open at the end of the calendar year, with places allocated on a first-come, first-served basis.

Health and wellbeing

We can't be the best person we can be at work, if we're not taking care of our whole selves.

We offer WeCare which is a free employee assistance programme, which is a 24/7 online GP, mental health service, get fit programme and legal guidance. We have Wellbeing Champions to help encourage colleagues to consider and be open about our individual physical and mental health. We operate an ongoing programme of personal health and improvement initiatives

that we provide for all colleagues. Some initiatives are one off sessions, others run regularly. New ideas will be added throughout the year, and suggestions for health and wellness activities that could enhance our Wellbeing and Environment Champs programme are always welcome.

Examples of past and current activities provided include:

- Pilates
- Tea & Talk day
- Charity fundraising
- Desk side massage
- Pancake day breakfast
- Random Acts of Kindness Week

Lunch & learn sessions

Around once a month. Everyone brings a sandwich and listens to inspiring expert speakers. Some sessions so far:

- Mindfulness & meditation
- Diet & nutrition
- Getting better sleep

We also have a number of **social groups**, with something for everyone. These include:

- Walking group
- ramsac football club
- Golf
- Running group
- Board games

Mental Health at Work

We are proud of our commitment to the 'Mental Health at Work' framework, helping to support a positive change around mental health. Two in five people will experience challenges with mental health this year. It's okay to talk about that and to ask for help when you're feeling stretched. We have a team of mental health champions, who are always there to listen, in addition to organising events and activities in support of our mission.

Recently, I uttered the words **"I love my job"** to a friend when I was telling them about my work, and it dawned on me, that was the first time in my 10 years of working that I had ever said those words.

Working at ramsac is exciting, empowering, and fun. The pace of change we have is just exhilarating, and it creates many opportunities for those at ramsac to develop and grow, both personally and professionally.

In my role, I have the freedom to explore new ideas and then if there is a business case for them, implement them at a remarkable pace with the right balance between due diligence and delivery. This enables me to have a real impact for clients and colleagues alike on a day-to-day basis, which I love.

Working at ramsac isn't like working for "normal companies". **When we make changes here, we make them for the right reasons.** Everyone is encouraged to contribute to the direction of the company. And above all else, ramsac is the most supportive work environment I have ever been a part of.

“ ramsac feels more like a family than a job. Everyone shares a common goal and bands together to work towards it, achieving and upholding the high standards our clients have come to expect. This sense of camaraderie extends to the managerial level as well—you can have a laugh and a joke with managers, which is something you rarely see and something I really appreciate. From the day I started, everyone has been so welcoming, eager to help where possible, and keen to teach me new things when opportunities arise. It's clear that ramsac is built on the people who work here, and everyone is extremely valued and appreciated for their work, which is really comforting to know.

When I first started at ramsac, I did have the initial fear that, joining as an apprentice and being partially sighted, I might be held back in some way—but I couldn't have been more wrong. From day one, I was treated the same as someone who had been at ramsac for years and received absolutely amazing training. Moreover, working at ramsac feels less like working with colleagues and more like being in one big family. Everyone is so kind, and if you ever need help, whether from a colleague or at a managerial level, everyone will make time to talk to you, no matter how busy their schedule is. I couldn't be happier here.”

Gabriela N *employee since 2022*

It's hugely rewarding and engaging to work with such driven and enthusiastic colleagues. The environment is passionate, not only from a technology point of view, but also by doing right for our customers and ensuring our culture is a positive, caring and supportive one.

ramzac has a strong moral compass - We care for ourselves and each other just as much as the sustainability and profits of the business. As a result, you genuinely feel valued, and know your work is integral.

Kayleigh W employee since 2022

This is the first company I have worked at for a long time where I always feel valued, appreciated and listened too. I never dread going to work and am so grateful to have supportive and friendly colleagues and managers.

The culture, the benefits, the atmosphere, it sounds too good to be true during interview, but they really do put people first.

" Working at ramsac makes me feel proud of what I do and who I do it with. My team is incredibly helpful and kind, and they've made the process of starting a new career in IT as stress-free as possible.

I've never worked anywhere like this. Everyone is genuinely happy to be here and always willing to lend a hand. It's the most supportive work environment I've ever been a part of. When I first started working here, I often wondered, 'What's the catch?' But that's the thing—there is no catch! It's a phenomenal place to work and to grow, both in and out of the workplace. "

Kevin T *employee since 2012*

I've worked at ramsac for over 12 years and am still full of enthusiasm to be in the office, with a client or chatting with colleagues and that says it all!

Working at ramsac is like family, everyone is always willing to help out!

Kyle W *employee since 2023*

Being a part of team ramsac means knowing that my team values the work I do and being able to rely on those around me. The team are always happy to help, whether it's taking on a little extra work to even the load, or teaching others, so I always feel happy to ask for support when I need it.

Working at ramsac is never dull. I'm surrounded by a team of talented, interesting and very kind people, and always being presented with new challenges that encourage me to grow and develop my skills.

Lawrence W *employee since 2011*

I've been part of ramsac for more than a decade, spanning 12 years to be precise! The thought of being elsewhere feels alien. In tandem with ramsac's growth, I've experienced significant personal and professional development. The abundance of opportunities here is truly remarkable. I genuinely feel valued and heard, with the ability to communicate openly and transparently, free from any underlying motives.

ramsac really is a wonderful place to work, they look after us and I feel relaxed!

Lisa J *employee since 2021*

To be a part of team ramsac means being part of our family-friendly atmosphere, where you feel valued, listened to, and encouraged to learn, develop, and progress—from your peers all the way through to the Leadership Team. You're recognised for your contributions, which through monthly communication from our MD, allows you to see the contribution you as an individual can make/ have made. It's amazing to know I'm working for a company that actively encourages me to look beyond my position and support my growth daily. I am lucky to have created a path in my senior position for myself and am excited to see what the future holds.

Everyday, I go into work knowing I get to work with my amazing colleagues, alongside our supportive Leadership Team knowing I am making a difference. When I joined in 2021, I loved the values and ethos of the company, and it's surreal that these are the same core values which are still at the heart of everything ramsac does. I kept "waiting for the other shoe to drop" as everything seemed too good to be true, but it's three years later and I am still loving it!

Lori E *employee since 2023*

ramsac gave me a chance to switch careers and I wasn't sure how it would be to start from scratch, but the people here made it so easy for me to start over. There was zero judgement, and instead I was met with more support than I ever had in any previous job (more than I knew how to handle maybe). **Not only that, but the entire ramsac team made me feel like part of the family ever since I stepped foot here.**

The best part for me, though, is that ramsac isn't just like that with us, the employees - we have the same attitude towards our customers too. We are warm and welcoming, always supportive, and explain technical issues or projects in a way that makes sense to everyone in the conversation, regardless of their level of understanding of IT. And that's something pretty awesome if you ask me.

ramsac is like a breath of fresh air compared to other employers out there. I think ramsac stands out for the way they nurture and trust their teams.

The Leadership Team is also so approachable and open to conversation, that it takes the stress away from meetings that used to maybe stress me out in previous jobs, because I didn't trust that the LT had my back.

Louis D *employee since 2022*

I could not ask for a better place to work than ramsac. I have never worked for a company in which I feel such a close connection to my peers and could not be happier to work here. Working at ramsac really is like with a second family everyday.

Louise H *employee since 2014*

Having worked at ramsac for almost 10 years now, I have seen a lot of change as ramsac has grown, but something that has never changed is the culture, how much ramsac cares about the people who work here, how valued everyone makes you feel. I love it!

It's the most supportive organisation I have ever worked for, I really enjoy coming to work and I feel very lucky to work here.

Luca W *employee since 2016*

I feel incredibly lucky to be working at ramsac. After joining as an apprentice with no IT experience, I've been able to learn and grow so much over the past eight years and feel really fortunate to have had so many opportunities to progress into the role I'm in now. I love looking after such a brilliant team!

It isn't just about work here at ramsac. **So much is done to ensure all employees are cared for and supported. The people I work with are some of my closest friends, and that makes me look forward to coming to work every day.**

Lucas B *employee since 2023*

ramsac cares about people's digital safety and to have fun doing so. There are different challenges with each support request and it's like a puzzle to fix each one.

Luke E *employee since 2024*

Working at ramsac is honestly one of the best decisions I have ever made!

I have only been here for around 2 months now, but since day one I was made to feel part of the team.

I have taken a big leap and made a full career change to move here. **Right off the bat I was made to feel like I was an important and valued member of the team, and that they genuinely care about my future and helping me get the most out of my career here.**

Working for ramsac is like working for a company you have created with all your best friends! Everyone is friendly and up for a chat. And the atmosphere in the office is always positive and friendly.

Magda M *employee since 2021*

Being a part of team ramsac is an adventure and the reason I get out of bed with a spring in my step.

It means I get to work with an amazing bunch of people, grow as an individual as well as develop our skills as a team. Life at ramsac is joyous, fun and dynamic for those who thrive by living in the fast lane, but just as great fun for those who feel at home in quiet spaces with great partners for long, deep conversations.

We all treasure and appreciate the diversity of personalities and skills here, as we grow the business together and keep taking it from great to amazing every day.

Mark C *employee since 2000*

ramsac treats you as an individual and listens to what you have to say, and you feel valued knowing that your contribution is heard, no matter which area of the business you work in. You're given opportunities to develop and are encouraged to do so, both professionally and personally, and are well rewarded.

My on-site, client-facing role allows me to work with diverse clients across many different sectors and industries, which means I'm not often in the office. **Yet I always have the comfort and assurance of working for a company where you feel part of one big family and never feel detached or forgotten.** You have the support of a great management and leadership team who always have time for you.

Mark F *employee since 2022*

The culture here at ramzac is great. It is a very inclusive, rewarding and friendly place to work. Having initially started my role taking a transition from another industry with no previous experience, everybody was so welcoming and helpful!

ramzac is a real close-knit group, with all team members across departments always willing to offer advice and support when needed. **There is a great opportunity for development and overall is a very enjoyable, stress-free work environment.**

Matt L *employee since 2015*

I love being part of team ramzac, the Commercial team and the Leadership Team. I'm so proud of everything we have achieved in the 9 years I've been here and what we continue to achieve and for the part I've played along the way. **The culture of support, doing the right thing and supporting your colleagues is what means more than anything to me.**

For me, working at ramzac is being part of a community of like-minded friends. We all believe in doing the right thing and trying our best for colleagues and customers. It's busy and of course challenging at times, as you would expect from a growing company trying to be the best, but the support and laughs that we have along the way make that all worthwhile!

Matt S *employee since 2006*

Being part of a team where all departments work together cohesively to achieve the shared goal of providing our clients with the best possible service is very rewarding. Knowledge sharing and communication are key to this success, and in my experience, if you're struggling with something, there is always someone who will take the time to help you.

It's great because it allows me to continuously develop and apply my skills while working with a diverse range of clients. Being part of the Technical Delivery Team is especially rewarding, as we get to work with the latest technology and implement solutions that help our clients be more productive while keeping their systems secure.

Matthew B *employee since 2021*

It's great to work as part of a team that holds the same values as me and strives to make this a great place to work.

The positive work culture makes it possible for me to concentrate 100% of my energy to provide cauliflower grade customer service. **Management is always supportive and does not view employees as 'just a number' but always inspires us to follow our dreams and unleash our potential.** Indeed, ramsac is a people first business.

To work at ramsac is not about just being a part of team ramsac it's about being part of a family. I have worked for large global companies, and I have worked for small startup companies, but never had I worked somewhere where I felt valued and supported more than here at ramsac. I have had a rough year on a personal level with some medical issues and I have been given so much support from the team to accommodate my needs during this time. I could not ask for more.

I would describe working at ramsac as a fast pace inclusive environment where you will be supported by your line manager to be the best you can be. **An environment where your development is in your hands—if you are willing to put in the time, you will get everything you want out of it.**
